

**Ingredients data sheet****According to Regulation (EC) № 907/2006****Annex VII (article C nad D)****Name of product: LEX Magnolia Charm****Fabric softener****Manufacturer: Mexon LTD****Ingredients:**

|                                                                                                         |
|---------------------------------------------------------------------------------------------------------|
| 1. Water                                                                                                |
| 2. Quaternary ammonium compounds, di (hydrogenated tallowalkyl)<br>2-hydroxyethyl methyl, methosulfates |
| 3. Isopropyl Alcohol                                                                                    |
| 4. Perfume                                                                                              |
| 5. Perfume                                                                                              |
| 6. Lactic Acid                                                                                          |
| 7. Quaternary ammonium compounds, benzyl-C12-14-alkyldimethyl,<br>chlorides                             |
| 8. Styrene/Acrylates Copolymer                                                                          |
| 9. Coco-Glucoside                                                                                       |
| 10.Hexamethylindanopyran                                                                                |
| 11. Tetramethyl Acetyloctahydronaphthalenes                                                             |
| 12. Hexyl Cinnamal                                                                                      |
| 13.Silicone emulsion                                                                                    |
| 14.Benzisothiazolinone                                                                                  |

15. Methylisothiazolinone
